Biography

Chris has been in the Manufactured Housing Industry since 1990. He has been involved in practically every kind of home sale that can be encountered from 10' wide single section used homes to two story modulars. He started at Riverview Homes in 1990, and spent 4 years in the sales department. In 1994, he left Riverview and worked for 2 other manufactured home establishments for a few years. In 2002, Chris returned to Riverview Homes because he found out that the customer service that was provided elsewhere could not compare to Riverview Homes. He is currently the Sales Manager at the Carmichaels Sales Center.

In his words, "In order to best fit my customer's needs, I do everything I can to keep on top of this ever evolving industry. I have somewhat of a different insight, for the fact that I live in a sectional home and owned a single section home previous to that. I can give a different perspective than some other sales people, because I have experienced this process from both sides of the desk. I believe I can better help our customers from my hands on knowledge of what they need in all aspects of the home buying process. My main goal is to take care of the customer."
