

## **Riverview Homes Finance Seminar A Success**

*FOR IMMEDIATE RELEASE*

Riverview Homes, Inc. has just completed a finance seminar that included information about financing new homes and credit repair. The turn out was beyond our expectations.

Vandergrift, PA – *January 24, 2012* – Riverview Homes, a leader in the modular and manufactured home industry, has just completed a successful Retail Finance Seminar. “We had more than 15 homebuyers attend,” says Robert Fanelli, President of Riverview Homes. “We have provided similar seminars in the past, but none have been received as well as this one. Since the response was so positive, we are planning two more finance seminars in the upcoming months.”

The format was a little different than a typical finance seminar you might see advertised. Riverview Homes provided a short discussion on general finance requirements by a representative of Gold Coast Construction Loans, and then had a short discussion about credit repair and credit scores from a well known credit repair company. This information was followed up by questions and answers for any specific questions that the guests had. “I take it as a very good sign of a strong local housing market and a huge amount of positive interest in our product,” Mr. Fanelli adds.

Riverview Homes is planning similar events on February 18, 2012 and March 24, 2012, both events to be held at the RHI corporate training office in Vandergrift, PA. The events will run from 10:30am to 1:00pm for both the Finance and Credit Repair sections of the seminar. An interested person can attend both or just one for no fee and under no obligation. It is necessary to RSVP since only 20 people at a time can be accommodated. For more information call 724 567 5647 and ask for Debby.

Riverview Homes, Inc. is a builder of modular and manufactured homes serving Western Pennsylvania since 1970. They are family owned and operated and have 8 display centers with over \$8,000,000 of inventory on displayed.
