

The background of the cover features a wooden plank wall. In the center, several rectangular panels of different colors and textures are displayed in a staggered arrangement. The colors include dark blue, light grey, and a textured taupe. A solid dark red rectangle is positioned to the left of the main text. In the bottom right corner, there is a collage of various material samples, including wood grain, a textured white surface, and a light blue-grey material.

Cavco Clarion is well known through the industry for high quality, innovative designs , and beautiful homes- making Cavco the first choice of home buyers. Cavco's leadership is made possible by a highly trained and experienced workforce, the latest building technologies, and a passion for your satisfaction. Whether the buyer desires a single or multi-section home, the quality answer is always a Cavco Home.

Cavco's commitment to the homeowner, the retailer, and their own employees ensures a high end quality product that makes every buyer proud to "Come Home to Cavco." And with many of our manufactured homes now eligible to earn the ENERGY STAR® label, we bring an additional level of quality and comfort to our homes. For the sixth straight year, Cavco Clarion is an ENERGY STAR® award winner.

Classic Craft Cabinetry

Cavco Homes understands the importance of a well-designed kitchen. Kitchens are often the gathering point of a home, where families share meals and friends share time. Key to any great kitchen are the cabinets.

Cavco Homes' Classic Craft Custom Cabinets are built to look great, built to meet your needs, and *built to last*. Most of our homes have cabinets that are constructed to the rigorous standards of the Kitchen Cabinet Manufacturers Association. This KCMA label is the same as you'll find in the best store-purchased or custom-built cabinets.

Simply put, our cabinets are heavier, stronger, and built better. Our cabinets are regularly (and randomly) tested by KCMA representatives. Our cabinets need to pass many tests to meet KCMA standards, including:

- Overhead cabinets rated to 500 pounds capacity
- Drawers opened 25,000 times - with weight
- Cabinet doors opened 25,000 times
- Harsh testing of cabinet finishes
